Mehta Booklist.Hospital.Q: Is there a term for the quality of a story that indicates if the author has paid attention to detail? For example, if I were writing a story and included a character who was allergic to pepper, I would want to mention in the story that I made the character allergic to pepper. I feel like I should word this question to make it worded in such a way that I don't have to say that I have to include that bit of information so that others can easily take my story at face value because I didn't mention it. I know the term I would search for is Author Focus Index (A.F.I.), but I'm looking for the equivalent term when it comes to the writing of the story, not the finishing. A: I believe this is the best term: That is very detailed, but is extremely specific about the writer's attention to detail and no other detail is as important as this particular detail. This is a well-crafted story, and it is obvious that the writer made a large
