## **System Requirements For AutoCAD:**

Rift VR is a PC application. For optimal performance, we recommend players use a PC with Windows 7 64-bit or newer. Rift uses DirectX 11 and is compatible with the latest games. For optimal performance and framerate, we recommend not using v-sync. For high performance, players are recommended to use an NVIDIA card with at least 2 GB VRAM or a high-end AMD card. Note: The performance settings are different between AMD and NVIDIA cards, so if you are unsure, we recommend
