Siemens logo soft comfort v61 download Siemens logo soft comfort v61 downloadQ: XSD - The sequence of elements must appear in the same order within all matching... elements I need to validate an XML against xsd: all constraints in one xsd but don't know how to do it. XML: admin admin The xml is not supposed to be like that so the requirement is simple. But if the xml is like this: admin admin The error appears saying: (Error at xsd1.xml, line 2, column 4: The sequence of elements must appear in the same order within all matching... elements.) I know that I can make it

more complex by adding more attributes and children and so on to make it more flexible but I just can't wrap my head around how to do it. If you know how to do it with simple elements please provide sample. A: Well, this is not as easy as I expected. But still in case of more complex structures like these it is still possible. If you have a structure like this Then you can simply do like this in your XSD
